

## Quality-Controlled Datasets

Column Name	Description
id	Unique Identifier
label	name for the feature type
score	the CrowdRank confidence score of the assigned attribute, relative to other tags in the dataset. (floating point 0-1 with 0=no confidence, 1= fully confident)
agreement	number of other taggers who placed the same tag type on this point
chip_url	link to a .jpg image chip hosted on aws with the identified feature in the center of the image
timestamp	Date/time in GMT of the last QC batch
acquisition_date	Date the image was collected
sensor	the DigitalGlobe satellite that captured the image
catalog_id	DigitalGlobe identifier for the image strips collected by our satellites
map_id	unique identifier for each lattice cell across the imagery

## Raw-Tagged Datasets

Column Name	Description
id	unique identifier
tagger_id	unique identifier of the user
map_view_id	map image id as seen by crowd
type_id	database tag for the feature type
label	name for the feature type
timestamp	time in GMT that tag was placed
